

Summary - L.A.T. Inspection (held 17/5/2011)

The Inspectors cross-referenced a multitude of specific points under the following Headings:

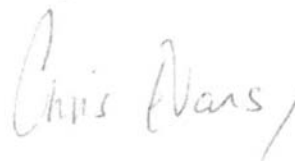

1. Practice Staff (including Responsible positions, Training, Practice Management)
2. Practice Facilities (internal & external)
3. Infection Control & Waste management
4. Medical Emergencies
5. Dental Radiography
6. Documentation (on display, various Policies)

The Report (dated 31/7/2011) comprised 7 close-typed pages - it identified a small number of "Action Points", most of which concerned documents needing to be on display OR filed better so as to be more easily found OR to be edited to reflect recent changes (legal or factual). One identified suitable training to be provided to all staff. One identified the need for P.A.T (which had been organised but not held at the time). ALL were addressed promptly after receipt of the Report.

A final Certificate was then received, which reads:

Accessible Orthodontics, 21 Beaumont Street, Oxford, Oxfordshire OX1 2NA has been inspected by the Dental Adviser to the Oxfordshire Primary Care Trust, and has found that according to the current Department of Health regulations, this practice provides proper and sufficient surgery and waiting room accommodation and uses suitable equipment and instruments for the practice of dentistry.

Signed

A handwritten signature in dark ink, appearing to read 'Chris Evans', written in a cursive style.

Chris Evans - Dental Adviser
